TURNED OVER TO OTSEGO

Two Indian woodsmen suffered serious injuries in a drunken brawl at Moot's camp 5 miles northwest of

Frederic late Saturday night, heir assailants Dice Hood and Robert Scheme, two Kentucky woodsmen, are held in the Otsego County jail pending investigation.

Ing investigation.
Sunday morning the State Police headquarters at East Lansing broad east a description of the pair and at 4:30 that afternoon Sheriff Bob-enmoyer found them in a freight car here and held them in the Crawford county jail until the authorities from Gaylord arrived. Deputies Andrews and Lake of Gaylord and State Police Sergeant Aldrich, Cheboygan Post, arrived in Grayling Sunday to take the pair to the Otsego County jail. It is said the two Indians, who re-side at Moots wood camp with their

wives, were intoxicated and were singing songs much to the displeas-ure of Hood and Scheme, who requested them to cease singing. When the Indians-heeded their-request, the attack by the Kentuckians climaxed an argument between the four men. The men were stabbed with knives. Both Indians were critically wound-

ed. One of them was slashed across the back and was taken to Gaylord ospital. The other man suffered Oscar Wilkinson P

SCHUMANN-SMITH WEDDING

Defore an assemblage of some 100 riends, Miss Eleanore Schumann. laughter of Mr. and Mrs. Oscar Schumann and Arnold Edward Smith son of Mrs. Anna Smith of Grand Haven, spoke their marriage vows at Michelson Memorial church at our o'clock on Saturday afternoon. With a profusion of ferns and calla illies the church presented a simple which rose graceful tall lighted candles. At each end of the choir rail, but on the platform below the rail. but on the platform below the rail. were pedestals on which stood light-id candelabra while two others of the same type had been placed near the front and the center of the church. Two large baskets of bright pink snardragons wer the only effectively placed at the entrance of

the chancel. At four o'clock Mrs. C. G. Clippert took her place at the organ and ac-companied Mrs. Harold Jarmin and Mrs. Roy Milnes as they rendered the beautiful duet "At Dawning" by Cadman. Immediately following this selection the strains of Mendelssohn's wedding March pealed forth and Rev. John Wilfred Greenwood took his place just inside the chancel; the groom and best man, Mr. John Vyn of Grand Haven, coming from the right. From the rear of the church the ushers, Mr. Harold Smith, Grand Haven, brother of the groom, and Mr. Oscar Wilkinson, Pentiac, proceeded toward the altar followed by little owing to his condition could not be moved to the hospital. He lies in a serious condition at the camp. daughter of Dr. picture of pink lovliness in a ruffled frock of pink net and chiffon. She carried a basket of violets and pink

Mrs. BeLa Mater and son Howard were at the Erkbendle home over the week of Grayling standing near the entrance. In both pictures she is shown as a bathing girl. The cards are very at-tractive and deserve sending to out-Postmaster M. A. Bates guided a number of ladies and gentlemen out of-town friends as well as to keep.

Five division department heads of pany, men who did not have a single lost-time accident during 1930, were presented with luncheon at the Hotel Wenonah, Bay City, Monday. Those who receive cards were: William Miller, road master, and John Harden, building foreman, both of Bay City; Clifford Grayling; E. J. Skulley, enginehouse foreman, Saginaw, and Ray O. Prestn, car foreman, Mackinaw City. The Mackinaw division is said to have the third best safety record in

the period from 1925 to 1930. There are many kinds of clocks but Charles Wilbur is building one that is designed like a fireplace. The fireis designed like a fireplace. The fire-place, the chimney and door of the clock are made of 2200 pieces of wood which are inlaid and glued to-gether. There are 86 kinds of wood, 33 kinds which were obtained outside of the United States. Mr. Wilbur has used such woods as Kingwood Mahogany, Butternut, Gabon Ebony Gonzala Alvez, Laurel Satinwood Yoma wood, etc., and has used the colored wood for working out designs of flowers, etc. The dial of the clock or nowers, etc. In that of the clock is made entirely of gum timber and red cedar, the figures of old ivory, and the minute marks are inlaid pieces of Gabon Ebony. The works were taken from a Seth Thomas clock which was made more than 125 years ago in Plymouth Hollow, Connecticut. The name of the town Plymouth Hollow was later changed to Hart-ford. The contrast of the various colored woods which have been var-nished, is indeed beautiful. Mr. Wilbur has spent twelve hundred hours so far in the making.

by her niece, Jeanne Marie Hanson motored to Lansing Wednesday of last week to visit relatives and friends. They returned Sunday accompanied by Miss Mildred Corwin who is spending the spring vacation with her parents, Mr. and Mrs. Nels Corwin and family.

Mrs. Ferd Shirey, Mr. and Mrs. O. R. Scott, Mrs. Alvin Scott of Roscommon were in Grayling Tuesday owing to the illness of Ferd Shirey of Roscommon who is a patient in Mercy Hospital. Mrs. LeRoy Scott during the time they were in Grayling.

Arthur Waite of Midland visited is wife and family who are guests it the home of his parents, Mr. and Mrs. Elery Waite. He was accom-panied to Grayling by Vern Smith and Earl Miller of Midland who spent the week end at the Waite home. Arthur Waite, Vern Smith and Earl Miller motored to Charlevoix Saturday, returning the same day.

Mrs. John H. Dye who just rehome in Miami, Fla., brot with her another sample of citrus fruit that is little known here. It was a Papaya fruit. It looks almost exactly like a musk mellon. It is oblong in a musk mellon. It is bolong in shape and has skin very like the mellon and the inside flesh of the fruit too is like the mellon and has a mellon flavor. The seeds are near ly round and may be eaten and pas ess a spicy flavor and are said to contain pepsin and are good for stomach trouble. Personally we don't care for the seeds but the fruit is excellent. The sample was picked green and allowed to ripen slowly which takes away much of its de-licious flavor that it contains wher picked ripe from the tree. The sample was over a foot long and six inches in diameter, yet it is said hundred mellons annually. They grow in the trunk of the trees instead of on the branches thus enabling the tree to withstand the tremendous weight. The trees grow very rapidly height of about 20 feet.

An Exclusive Dealer

One of the largest corporations in the world wants an exclusive dealer in Grayling to handle their complete line of Electric Refrigeration.

A rare opportunity that will be available for only a short time as practically all cities are now franchised.

This dealership is for a high grade man that contemplates starting a new business also for the Better Class established merchant.

If you can qualify we have a proposition that is most interesting. Communications held in strict confidence if so requested.

Address-P. O. Box 95, North End Station, Detroit, Mich.

AGRICULTURAL NOTES

cessful brooding

to become infect of

eases as coccidi-

Clean out the litte

week for the fir

The buyer of seed corn does well to consider the productiveness of a where a continuous growth of succeptively, its uniformity, and its adaptability to the soil and climate where it is to grow, says the U. S. Department of Agriculture. The varietal name may be of little importance because of the mixing of names by seed-corn dealers and the mixing of varieties through cross-pollination by the wind.

However, that they are a way be profitable, the prolitable, the prolitable of succeptive when I have done something difficult or well. It stimulates me to greater effort; it kindles my imagination, and often makes it possible for me fo do something even better than I had done the first time.

Praise does not always act us a stimulant, however. I recall two introgen in the soil is very low, but as the soil warms up the organic metals is greadfully converted into

the wind.

Coverings of rather heavy cloth laid directly over garden truck or other low-growing plants are effective protection examine moderate. tive protection against moderate f. ests. Place the coverings over the plants early in the evening and reprove them as soon after surrise as possible. Tin cans or other metal coverings are not effective in protections usually more profitable than nitrogen alone, as most soils require potash and phosphous also.

Sanitation for Chicks ing plants from frost damage, because such objects are good conductors of heat and moreover are too all to conserve the original warmth

Lower production costs, a tendency toward improvement in market de-mand, and a greater degree of stabil-mand, and a greater degree of stabil-mand, and a greater degree of stability in general commodity prices are predicted for 1931 by the U. S. Buregg. One of the Not ways to
cau of Agriculture Economics, in its
cradicate it is to remove all infected reports are prepared by the bureau to help farmers make plans for planting crops and breeding livestock in view of the market conditions that will probably exist when the crops and animals are ready for market. The Farm Outlook for 1931: Facts for Farmers, may be obtained by writ-ing to the U.S. Department of Agriculture, Washington, D. C., for Miscellaneous Publication 112-MP.

Plants Need Nitrogen

Plants need nitrogen particularly ed for the destruction of parasite and rearly growth; hence it should be discase organisms. Supply green applied preferably as a nitrate to range, do not overload the chicks, springssown-crops chiefly at the time of planting. Apply it at a fairly used for brooding the previous year. high rate to most early crops grown Ground previously used for chicks for foliage, such as cabbage and lettuce. If the growth period for scraping off the top layer of soils and such crops is short, one application removing it to a safe and remote may be enough; otherwise subsequent distance from the chicks' marters.

HOW TO IMPROVE THE SOIL

Soil Condition Essential To Garden Success

The most experienced gardener could never grow a good crop on heavy, clay soll. The first back was been supplyed by the will be writer and plant for their best development. Thorough superation of the soil particles by sand, marl, organic matter or other suitable substances is necessary to bring about the best condition known as a loose texture.

An open or loamy soil holds more water and air than a clay soil which tends to cement itself into a compact mass that the deletate plant roots cannot penetrate. The open soil also helds more water following rains and when well cultivated, retains a large amount of moisture for extremely periods.

Clay soil can be improved by addition of sand, lime, limestone, ashes, manure or litter. The best practice for the city or suburban gardener is an application of a liberal covering of manure in the late fall. Plow or spade in the fall or spring and add a generous top dressing of hydrated or air slaked lime before raking.

Sandy soils are too loose, and lack a sufficient amount of humus and plant foods for satisfactory growth. Stable manure or decaying vegetable matter of any kind is the best conditioner of such soils.

Muck or bottom land is usually very rich but often heavy and water-logged. It is also strongly acid. Deep cultivation helps dry out such

soils, though sub-draininge with tile is generally necessary. Lime is the most practical remedy for the said condition and the proper amount of limy materials will make such land gardens the most productive of all, (Courtesy "True Temper" Garden Book.)

Heavy Grading Hoe This is the ideal tool for breaking up heavy soil, digging trenches and cleaning out old

briers, heavy weeds and runners, Roots Following the Water

The upper picture shows the shallow root sys-tem developed by plants in wet soil. As the ground water level drops in summer the roots are left without sufficient moisture for growth ditions in the upper layer of the soil which encourages deep rooting.

SAFETY

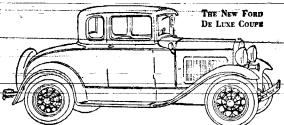

Triplex shatter-proof glass windshield has saved many lives in collisions

EVERY new Ford is equipped with a Triplex shatterproof windshield. This is made so that the glass will not fly or splinter under the hardest impact. It has saved many lives and prevented injuries in many automobile collisions.

This shatter-proof glass windshield is just one of many features that make the new Ford a value far above the price. Others are the silent, fully enclosed fourwheel brakes, sturdy steel body construction, four Houdaille double-acting hydraulic shock absorbers, more than twenty ball and roller bearings, extensive use of fine steel forgings, aluminum pistons, chrome silicon alloy valves, torque-tube drive, three-quarter floating rear axle, Rustless Steel, and unusual accuracy in manufacturing.

In addition, you save many dollars because of low first cost of the new Ford, low cost of operation and up-keep, and low yearly depreciation.

The Prince of Wales has opened the

in some respects as something of a model code toward which state banking laws more and more have approached year by year, so have the state codes developed valuable reforms which have suggested improvements for the national laws. A great many undestrable competitive inequalities have been wiped out by this mutual evolutionary process and further prog-ress along the line of uniformity so far as is desirable is anticipated.
"However, I do not believe that it is

DUAL BANK SYSTEM

FAVORED BY BANKER

State and National Institutions

Supplement Each Other in Serving Country's Varied Financial Needs

RECENT suggestions that all banks in the United States be under Fe-

tion of the American Bankers Associa-

there should be state as well as na-

tional banks, as that there should be

state as well as a national government. I do not think that analogy is far-

fetched. The states should not sur-

render all political jurisdiction to the

central government, and the local busi-

ness life of the states should not be

made to surrender all control over

financial functions to national financial

instrumentalities. There are many variations of business conditions from

state to state and there are special

fiscal requirements of the various

"It is entirely logical, therefore, that

the states should retain the right to

charter banks so as to mold and direct their affairs in accordance with the

states' governmental and business re-

quirements and keep them adapted to localized sentiment and conditions.

vanced that the dual system jeop-

ardizes the life of the Federal Reserve

System because under it there is a

large group of banks that are free to

remain out of or to withdraw from the system. Facts and figures prove

"It is true that there has been some

shifting from national to state char-ters especially in cases of mergers of large national banks with banks op-

erating under state charters. However, the Federal Reserve System was not weakened in this process because the

merged institutions almost universally retained their membership in the system on a voluntary basis. Moreover,

the records show that state bank mem-

hers are just as good members of the

system as national banks and the ratio of state bank resources in the Federal

Reserve System is constantly growing. In 1922, national banks held about 65

per cent of the resources of reserve members, and state banks about 35 per

cent, while in 1929, the nationals held only to per cent and state banks 40

that this is a specious argument.

"The argument is sometimes ad-

states.

a disadvantage to have two banking codes that differ in some respects. It is quite probable that the state banking code in many instances represents a closer adjustment to local conditions then could be had under the national banking laws, and this is a situation that should be retained. There should, however, not be competition between the two banking codes. Competition should be between banks themselves and not between the laws under which they operate. The effort to offer too great allurements in one code against the other could lead only to weak banking laws. But I do think that there should be the alternative banking institutions and local business interests may choose, so that they can function or conduct their business relationships under that banking code which best meets the conditions of the times and of the place as they see them.

in both Boscommon per year \$2.50 | 1929 figure. In that year the Department reported 68,011 | licenses | the per cent over the directions. In states where such unsound measures as the guarantee of deposits were operative state banks Deer hunters in Michigan have inful effect of such laws. On the other hand, when a court decision was handed down in Worcester, Massaa state bank, it was a real advantage for national banks affected to take out and operate under a state charter, either on a temporary or a permanent basis, as circumstances make expedi-

ent.
"In my opinion, bankers, national as well as state, should combat the a of the vitalizing benefits of our dus cystem.

Finance Fights Erosion

Farm terracing to stop erosion is of major importance in Noble County, Oklahoma, the county agent said, and so one of the county's national banks bought five farm levels to be loaned to farmers without charge. The machines were immediately put to use and the farmers are showing keen in-terest in terracing. Two terracing schools were started for adults and 4-H Club boys.

Breaking records is so common an ed accisions after enjoying their annoted, however, that the women's alti-

humanity.

Measures to lessen the severity of the blow inflicted by drought were taken as early as last September, when seed was distributed to more than 58. 600 families for the planting of the and other pastures, and to more than 27, 000 families for the planting of kitchen gardens. The expenditure for this purpose amounted to \$326,800. Green vegetables were made available up to the first of January.

Early in February another Red Cross

Early in February another Red Cross garden program got under way and 507,000 packages of seed were distributed in 15 states. Quartersacre plots were planted to beans, beets, cabbage, carrots, collard, sweet corn, kale, lettuce, musfärd, okra, onious, peas, spinach, squash, tomatoes and turnips. Once again were farm families given the opportunity to participate in their own salvation. own salvation.

A comparatively mild winter contrib-uted to the success of the Spring and Fall seed campaigns. Many habitual single-croppers were introduced to the advantages; of kitchen gardens, balanced cropping and becaused diet. anced cropping and barranced diet. Numerous land-owners have expressed the opinion that this constitutes the one apparent blessing to come out of the drought catastrophe. The United States Department of Agriculture and the local county agricultural agents and home demonstration agents co-operated in making this part of the relief operations outstandingly success

"If you can meet with Triumph and Disaster And treat these two Impostors just

And no sooner have we read them than we quickly recall the Character who was the supreme illustration of their truth. Paim Sunday in the life of Jesus was a day of Triumph. The crowds were shouting "Hosannas." Good Friday was a day of Disastèr. with the multitudes shouting in derision-"Crucify Him." But the Man of Galilee was not disturbed by the public acclaim or the public criticism. He went on His way with splendid fortitude. And the secret of His strength is revealed in His own words-

'I came, not to do My own WILL but the WILL of My Father in heaven." There is only the good opinion of God which we should carnestly covet. It is neither fickle nor vain. Popular opinion may spell for us either hollow Triumph gruesome Disaster. We should learn from Jesus to treat these two Impostors just the same.

STATE PLUMBING LAW

(This is the fifth of a series o articles regarding the State plumb-ing law, published at request of the ing law, published at request of the Michigan Division of Plumbing). ACT 226, P. A. 1929

An act to provide for the licensing f plumbers, the supervision and in-pection of plumbing and the adopon and enforcement of minimum tandards therefor by the state com missioner of health, with the concurcence of the advisory council of

The People of the State of Mich igan enact: Section 9. The commissioner shall

issue temporary revocable permit ending examination and may make rules governing the issuing of such permits, and to assist in this work, may appoint agents, without com-pensation, and may authorize one of its examiners or plumbing inspectors to hold a special permit examination the results to be reported in writing. Section 10. Every holder of a master plumber's license, engaged in the business of serving the public in any city, village, township or county having a system of waterworks o sewerage, and required to be licensed by this act and having complied with to the examining and licensing of sumbers of the said city or village, in all display in a conspicuous place at the entrance of his place of business a sign bearing his name and the words, "Licensed Master Plumber," in letters not less than three inches high or plumber shall use or display the title, "master plumber," or append his name to such title, or any other title or words which represents or may tend to represent him as a

icensed plumber. Section 11. The state commissione of health may, on his own motion or complaint in writing, make inin reference to any of the matter regulate by this act, and may revoke any license issued under the provisions of this act, if he finds after a hearing that the holder of such license has obtained the same through error or fraud, is incompetent, has wilfully violated a second time any of his rules or regulations or has violated any provision of this act, or any of the rules and regulations issued by any city, village, township or county. A copy of the township or county. A copy of the complaint, together with notice of the time and place of hearing, shall be served upon the party complained against, by personal service or by registered mail sent to his last known business or residence address. The person so served shall file answer thereto with the state commissioner of health within ten days after ser vice, and shall also serve a copy of such answer upon the complaint, if any. No order revoking a license shall be made until after a public hearing or hearings held before the commissioner or before any duly autherized employee whose report the commissioner shall have adopted. Such hearing or hearings shall be held in the county wherein the per-son complained of has his place of business or residence. In the even that said plumber is a non-resident such hearing shall be held in the county where the defendant is em-ployed or was last employed. The testimony presented and proceedings had at any such hearing shall be taken stenographically and preserved a record of the commissioner. No license shall be issued to any person whose license shall have been previ-ously revoked, until the expiration of one year from the date such revocaion becomes effective: Provided, how-Those who covet a moment's let-

HOME GARDEN

- -

of insurance against privation that are farsighted agricultural leaders is denied the city worker. In this who are in agreement with Mr. respect he is far better off than the Beattie in preaching the advantages thousands of unemployed in the cities, of making the farm as much as possible and the cities of making the farm as much as possible and the cities of making the farm as much as possible and the cities of the cit

Recently W. R. Beattle, Senior Horticulturist of the Bureau of Plant Industry, United States Department of Agriculture, in a nationally broadcast radio talk on the farm graden, stated that in every economic crisis through which the agriculture of any section of the country has passed the home garden and other sources of home food supply have saved the day.

When the boll weevil struck the cotton growing sections, Mr. Beattle pointed out, one of the first steps taken was to start a campaign for vegetable gardens, poultry, pigs and cows on every farm so that the land would at least provide a means of livelihood. Things haven't changed much and the same principles apply today. The farmer, however hard times may be for him, who plants and cultivates his own garden has a form

When the boll weevil atruck the cotton growing sections, Mr. Beattle pointed out, one of the first steps taken was to start a campaign for vegetable gardens, poultry, pigs and cows on every farm so that the land would at least provide a means of livelihood. Things haven't changed much and the same principles apply today. The farmer, however hard times may be for him, who plants and cultivates his own garden has a form

In all parts of the country there have the farmer many and the cotton growing farm mays 7)

time of industrial prosperity and tendency at the land.

"If everybody engaged in farming."

Mr. Beattie said in his address, "will produce the states, statewide campaigns and other states, statewide campaigns the being almout the planting of farm gardens, will plant the states home depression, but as a farm at least have a good living at home and the states home depression, but as the states hound other states, statewide campaigns the being almout the planting of farm gardens, will plant the planting of farm gardens, will plant the planting of farm at least have a good living at home and the states home depression, but as a free radical point of sequence and other states, statewide campaigns to being almout the planting. A well planted a

President Hoover on Business and Pleasure Trip to Porto Rico and Virgin Islands-Mayor Walker Under Fire.

By EDWARD W. PICKARD

PRESIDENT ROOV. er and a "stag party" sailed from Norfolk, Va., Thursday morning on the reconditioned battle-ship Arizona for a twelve day trip on which the Chief Ex-centive planned to combine rest and pleasure with busibess, included in the

Gov. Theodore Parks, included in the party were Secretary of War Harley, Secretary of the Interior Wilbur, Capt, William Furlong, who handles many island matters; Capt. Churles R. Train, naval aide; Col. Campbell Hodges, army nide; various other officials from the White House, and a banch of newspaper men and photographers, Capt. C. S. Freeman was in command of the Ari-zona and the vessel carried a full

farm family self-sufficing, able to and in-communications to the Ameri-weather any economic storm.

Can papers has given detailed pictures of the distress obtaining in the Island. Sixty per cent of the people are out of work, he said, either all or part of

the year. The population consity is exceeded by few countries. it is 410 to the source ratte and even intensive agriculture would not support this population. So it is incustries that Governor Roosevett says must be devel-oped. More than 35,000 persons are suffering from tuberculosis, 200,000 from malaria, and 600,000 from hook-

From Porto Rico the Arizona was to proceed to St. Thomas, principal port of the Virgin Islands, where Mr. Houver was to be met by Dr. Paul M. Pearson of Philadelphia, the recently appointed civil governor, and Walde Evans of the navy, the retiring governor. With them he was to study the problems of the group, which are as serious as those of Porto Rico. The Virgin Islands used to prosper on the manufacture of rum and the trans-shopment of European cargoes for the entire Caribbean region. The prevail-ing economic distress is the result of prohibition and the conversion of coal burning vessels to oil consuming ships. Only a few days ago the control of the Virgon Islands was transferred from the Navy to the Interior department, and now in Washington it is soughested that one result of the President's visit buy be the annalgamation of the group with Porto Rico as a

Tanoboldi G. Joslin, Washing-I to correspondent of the Boston Transcript, has been made secretary to President moover to succeed George Akerson, resented. Mr. Joslin is a close personal friend of Mr. Hover. His main duties will be arranging the President's raining list, handling visitors at the executive offices and main-taining contact between the President and the correspondents.

charges were presented to Governor Roosevelt by lenders of the city affairs committee and were subfrom to of such a nature as to compel the governor to take some action toward widening the investigation now being conducted by Samuel Senbury and contirmed by police and ungistrates.

Governor Roosevelt had let it be come known that he would not respend to any public clamor for arcitywide investigation and that he act only then specific charges, such as led him to appoint Senbury to investigate the conduct of District Attorney Thomas C. T. Crain, Previousis Senbury had been put in charge

of an investigation of police frameups in vice cases and of the conduct of city magistrates. The governor was asked by Crain to

revoke the appointment of Seabury on the ground of bins, but refused, and Crain was summoned to appear answer the charges made against him by the City club. Republican members of the state

legislature were s.iii trying to put through a resolution for a general inquiry into New York conditions, but were blocked by several recalcitrant members of their own party.

DURING the next three months, it was announced at the White House, President Hoover will carry out an extensive speaking program, delivering eight addresses and making nine public appearances. Besides this. he is contemplating a trip to his home ne is contemplating a trip to his home in Palo Alto, Calif. The subjects of his speeches have not been announced, but it is understood he will take the opportunity to set forth his own estimate of the achievements of his administration so far and his aims for the future. These will be sufficient to the set of the set the future. Thus he will be in a mens ure taking up the challenge put out by the progressives at their recent conference in Vashington.

The speaking calendar for the President as arranged is:

April 13-American Red Cross in

April 14-Pan-American Day, Pan-American Union, Washington. May 4-International Chamber of

Commerce, Washington. May 21-Fiftleth anniversary of the Red Cross, Washington.
May 30-Memorial Day, Vailey

Torge, Pa. June 15-Republican Editorial Association, Indianapolls, Ind. June 16—Dedication of Harding Memorial, Marion, Ohio,

June 17-Dedication of Lincoln Memorial, Springfield, Ill.

In addition to these engagements. the President is to review veterant of the Grand Army of the Republic at their reunion June 16 in Columbus

SENATOR HIRAM Johnson of Call-fornia, who is one of the most independent members of the upper house, thinks the recent conference of progressive leaders was a "fine thing" and that the leaders of the Republican party should call a similar meeting, add-

Sanator ing: "Only good can Johnson come from such erings." He is convinced that thing is radically wrong somewhere" with the Republican party.

Mr. Johnson gave out a statement in which he agreed with some of the progressive doctrines and disagreed with others, but said that "public consideration, study and discussion con-stitute the contribution and value of the conference." He asserted the country was naturally interested in unemployment, representative government, the power question, monopoly's en-croachments and public utilities, add-

"Some of our Republican brethren not only belittle the effort but would transcaute it into the one public mat-ter of concern to them—politics, But a philosophic onlooker who long ago marked his own course, and prefers in his own way to follow it, hight suggent that only progressives, in the in-terim between sessions, bring these vital questions up in public meeting for public discussion. Can any one imagine the standput wing of either meeting together with earnest and able experts and publicly discussing economic problems?"

D EATH once more has changed the political make-up of the house of representatives which will assemble in December. James B. Aswell of Louisiana. Democrat and ranking minority member of the agricultural committee, passed away at his apartment in Washington after a heart at-tack. He was sixty-two years old and had served in congress for nine consecutive terms

Mr. Aswell's death leaves in the house 217 Republicans, 215 Democrats and one Farmer-Laborite, Represen-tatives John F. Quayle and David J. O'Connell, both Democrats of New York, died last winter. Their successors, Matthew V. O'Maley and Stephen A. Rudd, are both Democrats Representative Henry Allen Cooper. Republican of Wisconsin, died last March 1. His successor has not been chosen.

EVERYONE has now filed his inconfe tax return, or should have done so, and the experts in Washington are busy figuring up how much Uncle Sam will receive. Treasury of ficials could not yet make definite prefirst quarter, but they hoped that the receipts for March would run above \$400,000,000 and those for the first quarter, ending March 31, well dhove \$500,000,000. At least one-fourth of the total tax due was paid with the hopma lax returns filed on that con-

income tax returns filed, so that col-tections for the first-quarter will run somewhat above the average for the four quarters. Indications are that the higher tax rate for 1030 incomes will fall to off-set the losses caused by the economic depression by around \$100,000,000. Last year's collections for the first

quarter-were \$628,000,000.

PROBABLY twenty men perished when the senier Viking was blown up in White bay, Newfoundland. Of the survivors 118, many of them badly injured, managed to reach little Horse Island, where he few inhabitants tried to care for them with inadequate food and no medical supplies. Severn) others were picked up by vessels that sped to the rescue, called by the messages of the young girl radio operator on the island. Besides the large crew the Viking car-ried the members of a moving picture expedition.

The Next Red Arrow Auction will be held at the Temple Theatre, on

Friday Evening, March 27 beginning at 8 o'clock, or as soon as possible thereafter. All auction blocks will close against further bidding at 5 γ , m.

o'clock, Thursday, March 25. All cards that are to be entered in the Red Arrow Postal Card Writing contest must be at Sorenson Bros. by 5 p. m. o'clock Wednesday, March 25. The cards will be on exhibition from Friday, March

27 to Friday, April 3 at Sorenson's Furniture Store. Mail or bring all cards to J. W. Sorenson. Be sure your name and address are plainly written on one side of the card.

Winners of the contest will be announced at the Red Arrow aux-

The following prizes will be awarded the winners at this

FIRST PRIZE—CONKLIN PEN
SECOND PRIZE—COMBINATION PEN AND PENCIL
THIRD PRIZE—ALWAYS-READY PENCIL

THE BOOSTER CONTEST

is now under way and will continue until Monday, May 4.

O NE of the earnes' American Federation of Labor-the affiliation of the Brother-hood of Railway Trainmen with the federation—is soon to be reniized, according to dispatches from Washington, Repre-sentatives of both bodies and of certain

Secretary affiliated railway workers' unions were ngaged during the week in drafting the terms of an agreement for the amalgamution. Representing the feddent William Green, Secretary Frank Morrison and Vice President J. M. Bugenlazet, who also is secretary of the International Brotherhood of Electrical Workers, Sitting in for the train-men were President Albert Whitney and James Farquarson, legislative igent.

The drafting conference was the enimination of negotiations that have een in progress for a year, in Secretary of Labor Doak, in his former canacity as legislative agent of the trainmen's organization, is said to have played an important part.

I JNEXPECTED! Y heavy demands by World war veterans for loans have made it necessary for the treasury to raise \$200,000,000 in less than mouth, Secretary Mellon announced request by Veterans' Administrator Hines for \$500,000,000 to cover payments on 1.372.006 applications re-ceived up to March 15. It had been estimated \$300,000,000 would suffice. and 1% per cent treasury certificates were issued to get that sum. Hines said, however, the \$500,000,000 would

he needed by April 11.

The veternus' administrator also told Mellon \$1,000,000,000 would be required to pay all loans.

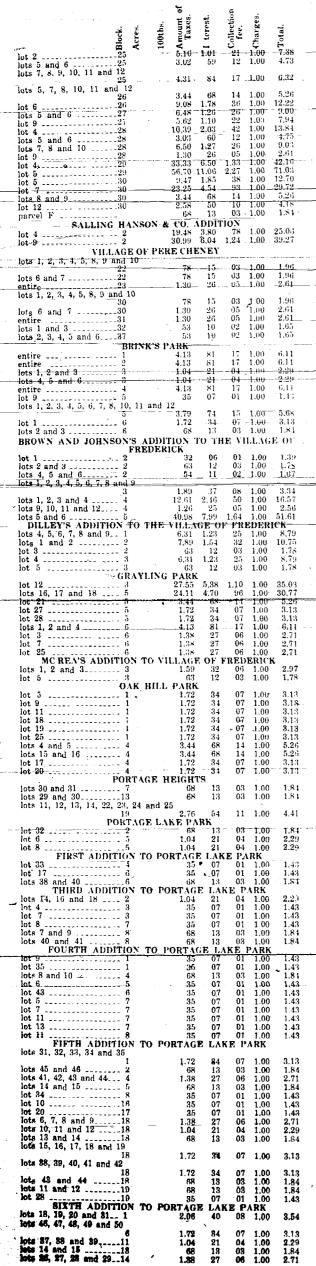

MAL DAUGHERTY, brother of M former Attorney General Harry M. Daugherty, was sentenced at Washington Courthouse, Ohio, to ten years in prison and a fine of \$5.000, He was convicted recently of abstracting funds from the now defunct Ohio State bank of which he was president and was refused a new

PIETRO CARDI-nal Maffi, arch-bishop of Pisa and one of the most eminent members of the sacred college, is dead in Pisa at the age of seventy-three years. in his earlier years he gained fame as an as tronomer and teacher of philosophy; was nade archbishop

in 1903 and four years later was raised to the purple by Pope Plus X. The same-pope, it was ru-mored, considered deposing him be cause he supported the modernists in a contest with the reactionaries in the church. Twice, afterward, Maffi was considered a papal possibility. He was always a great friend of the italian royal family, and he officiated last year at the marriage of Crown Prince Humbert of Italy and Princess Marie Jose of Belgium. For this he was given the Collar of the Annunsiata, the highest sit of the crown the highest gift of the crown.

Cardinal Maffi's death reduces the Italian membership in the sacred coliege to 28, agninat 80 foreign members. Therefore it is expected in Rome that a consistory will be held before long at which the pope will create n number of cardinals and give the Italians at least equal strength with the foreigners.

Why is it that they try these in telligence tests on children instead of congressmen?-Indianapolis Star.

broidered in a geometric design and the juliet sleeves add a graceful touch.

Youthful and Smart

Very youthful and smart is this white chiffon costume, trimmed with blue cyclet emacoldery. A white sisol straw but edged with matching blue crepe completes the costume.

SO VARIED are the interests of dir-ferent countries that the turiff armistica convention called at Geneva by the League of Nations is forced to report that it has failed to reach an agreement, though it has hopes that within a few years enough nations will ratify the pact to make it effec-

The conference was called by the league in an effort to secure a truce on the raising of tariffs and inter to obtain a general reduction of tariffs.
Only eleven countries ratified the
truce clause and all eleven made imnortant reservations. The usual reservation was, "If surrounding countries would also ratify."
